CORE PRO

High-capacity 1250 mAh (3.6 V / 4.5 Wh) lithium-ion rechargeable battery for the PIXA R headlamp. It provides excellent lighting performance, even at low temperatures. It can be recharged without being removed from the headlamp, or externally, via three external charging contact points and its charging cable. The CORE PRO rechargeable battery offers an economical solution as the main power supply or as a backup battery.

The CORE PRO battery can be recharged without removing the battery from the PIXA R headlamp, via three external charging contact point and its charging cable. It's also removable and can be charge externally.

Short Description	Rechargeable battery compatible with the PIXA R headlamp. 1250 mAh
Selling Points	• High-capacity 1250 mAh (3.6 V / 4.5 Wh) lithium-ion rechargeable battery • The battery provides excellent lighting performance, even at low temperatures • The CORE PRO battery can be recharged while inside the headlamp via three external charging contact points, using its charging cable (available as an accessory) • Charge indicator is visible on the cable (red = charging; green = battery charged) • Economical and sustainable solution as main power supply or backup battery • Compatible with the PIXA R headlamp • Does not come with the CORE PRO charging cable
Specification	• Weight: 25g • Certification(s): CE • Energy: 1250 mAh / 3.6 V / 4.5 Wh • Charging time: 3.5 h
